I am a developer in Las Vegas with a passion for learning and solving problems using creative solutions. I can work within strict usability guidelines, ensuring a positive user experience across multiple devices and screen sizes. I also have experience with Agile (Scrum) methodologies and using version control for build processes.

Technical Skills:

- HTML5
- CSS3
- JavaScript
- React JS
- MySQL
- Node JS
- Git
- Babel

- Express
- Unix Command Line
- Flexbox
- Responsive Web Design
- React Native
- Redux

- Jquery
- Pivotal Tracker
- Agile/Scrum
- Semantic UI
- Arduino
- Raspberry Pi
- IoT
- Webpack

Experience:

- **PunchCode**   *Coding Bootcamp Student*   5/2018 - Present
  12-week intensive full stack web development training. The primary focus was on using JavaScript to build fully-functioning web applications using React JS.

- **Lyft**   *Community Associate, Driver*   3/2017 - 5/2018
  Managed day-to-day customer facing rental operations including new driver onboarding, existing driver support, and vehicle return processes. Also maintained excellent partner relationships (Hertz and Pep Boys) at the branch level.

- **Oto Float**   *Junior IT Technician, Junior Developer*   6/2016 - 3/2017
  Handled software and hardware installations (ex: Raspberry Pi, IoT, Arduino).

- **Lyynks**   *QA Analyst*   8/2012 - 10/2014
  Tested software and submitted detailed reports of bugs and issues using Pivotal Tracker.

Education:

- **PunchCode**   Certificate — Front-End Web Development   2018
- **Platt College**   Bachelor of Science — Media Arts   2008 - 2011

- **Platt College** Associate's Degree — Graphic Design 2007 - 2008
